

Information leaflet for **visitors** regarding the COVID access rules at the Wiener Privatklinik (as of 17th september 2021)

Dear visitors!

A visit to a patient can contribute a great deal to the patient's well-being and thus also to his or her healing process. However, it is important that this takes place **under safe conditions** - in the interests of all our patients and staff! We therefore ask you to comply with the following rules and definitions for access to the hospital.

Please prove your identity at the checkpoint by means of **an official identity document with a photograph** and truthfully fill out the form provided for any contact tracing.

1. **ALL persons are required to wear an FFP2 mask** within the premises of Wiener Privatklinik.
2. The **maximum visit duration is 1 hour / 1 visitor per day**.
3. Always keep **2 meters distance** to other persons.
4. Only visitors of one patient are allowed in the **semi-private room** at the same time. Please discuss this with your relative or your relative's neighbors in a timely manner.
5. If you are already protected by a "**full vaccination**" (see definitions below), you will need an **international vaccination certificate** and you can visit your relative.
6. If you have **only been vaccinated one time** OR have **no proof of vaccination**, you will need a **valid negative PCR test** (from an approved testing site) to visit your relative.

DEFINITION (what will be accepted in the Wiener Privatklinik):

- a. **„complete vaccination“** = all mandatory partial vaccinations (2 partial vaccinations, with Johnson & Johnson only 1 partial vaccination) + 10 days after the last partial vaccination; Vaccinations are only valid if the vaccine is officially licensed in the EU (as of 1st september 2021 those are the following companies: BionTechPfizer (Comirnaty), Moderna (**COVID-19 Vaccine Moderna**), Astrazeneca (**Vaxzevria**), Johnson & Johnson (**COVID-19 Vaccine Janssen**))
The international vaccination certificate or also a vaccination card, which must contain the name of the vaccinated person, or the printout from the ELGA vaccination register or the Austrian digital passport, in each case in conjunction with a photo ID, is accepted as proof of vaccination;
- b. **Valid PCR-Test:** must be issued by a certified Austrian laboratory or an official Austrian test lane and must not be older than 48 hours from the time of sample collection;
- c. **Antigen-Test:** must be issued by a certified Austrian laboratory or an official Austrian test lane, and must **not be older than 24 hours** from the time of sample collection;
Cost antigen test when tested in the day clinic of the WPK: 25 Euro
- d. Gargle self-tests, self-tests, antibody tests and segregation notices are not accepted!
